

# uniLED

	Energy efficient
	Non-polluting
	Long life
	Eco-friendly

# Why

## NO FLASHER

uniLED™ bulbs for blinkers are available flashers currently supplied makes and models of vehicles. This is a universal application.

### RAPID BRIGHTENING

uniLED™ bulbs turn on at **100%** of their intended brightness every single time significantly faster than the best available filament and halogen bulbs - *gives 10 meters of advance warning to driver behind you*

### LOW

### DURABLE BUILD QUALITY

uniLED™ bulbs have no filaments, gas filling and glass casing. This ensures they are unbreakable, water and vibration proof and come with a Life Time LED Warranty!

### SUP

*'Patent pending' uniLED™ is India's first and only LED automotive fitment product for automotive light across all categories of vehicles (2,3 & 4 wheeler) and across all automotive industry. A result of years of R&D and innovation by the best brains in the automotive industry is a unique concept that marks a new era in the Indian automotive lighting space.*

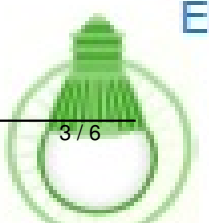

Conceptualized and produced by Kwaliti Photonics – India's largest producer of automotive lighting delivering state of the art innovative products since 1987.

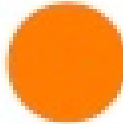

### LIFE SPAN = 25 times

uniLED™ bulbs have a life span equivalent to replacing the standard filament bulb 25 times! *Saves you Rs. 100/- per visit to the mechanic.*

### EFF
